Dear Mr. Brown:

I have received your letter of November 3rd and can certainly appreciate your problem of trying to obtain sponsors.

I had watched with considerable interest your efforts at St. Jovite this year and realize that you have good ability in the driving side of racing but of course, often times, your efforts are wasted because the car is perhaps not as well set up or sorted out as it could be. I have no suggestions for you as to who to get for sponsorship. Certainly if I had, I would first try to get them for myself but I think some one of your reputation and past records should be able to come to the States and possibly be successful in getting help.

I am sorry there is nothing more I can do to help you except to wish you much luck in future years.

Very truly yours,

Mark Donohue
